

HAPPY NEW YEAR 2025, FROM ALL THE DIVA ANGELS CHAPTERS!! As we move forward in this new year we must remember that

our club was created to form a sisterhood amongst woman from diverse backgrounds and lives. Joining has been the best gift to ourselves, by allowing us to expand our families and friends. This gift includes not only our Diva sisters, but all bikers that we come in contact with through rides, events, and meetings.

Unfortunately our world is so divided, but with such a large group of women, and men that ride, we show the world that people from all walks of life can come together and do good in this world and work together to make it a better world for us all.

Within our Gulf Coast Chapter we were able to help out Our Mothers House, who helps single mothers raise their children, with temporary housing, supplies to live, motivation to keep going, and a purpose to their lives.

We have a wonderful family that is there for our sisters in bad times and good times, by supporting them with a visit, a call or just a note stating that we are there for them. If the world could see how well our sisters and brothers of the bike world band together for any reason or cause, I think they could learn a valuable lesson and make the world better all the way around.

I am calling on all my Sisters of the Diva Angels, lets show the world just how we can bring everyone together in 2025. Please be safe during your rides, especially in the South with "season" upon us.

Remember if a biker has their helmet on the ground behind their bike, it is the sign for help, so stop and help your brothers and sisters.
