

Spring is here! This is the time that most females' riders are dusting off their motorcycles and

taking to the roads. And who can blame them?

The flowers are blooming, the trees are budding and full of color, and the days have grown long and the sun is warm. It's the perfect time to go out and feel the wind rush by while taking to the open roads.

The Diva Angels are your modern-day motorcyclists of business professionals. We are not your mother's picture of a "biker chick". We are mothers, daughters, grandmothers and wives who are also professionals leading the way in our business industries, all while gassing our downtime to 70mph on long relaxing motorcycle rides. Oh and yes, controlling the throttle of our own bikes.

The amazing women of the Diva Angels find both relaxation and adventure on the open road. Let's not forget to mention the volunteering, supporting, giving and mentoring with our local community.

If you're looking for a group of women to ride with, volunteer with, support with and who truly enjoy each other's company? Then we want you!
